INFORMATION TECHOLOGY

Currently, I have no practical experience, I only apply what I have learned to complete assigned projects, such as creating interfaces, processing data and |xing errors when the system malfunctions.

CAREER OBJECTIVE

As a final-year Information Technology student, I aim to join a professional working environment where I can apply my academic knowledge to real-world projects. My goal is to become a skilled developer and contribute to the creation of high-quality, modern software or web applications. I am eager to learn, grow, and build a long-term career in the IT industry.
